

FINANCIAL FREEDOM FOR FAMILIES

Financial Freedom for Families to the Fourth generation (F4) is a training module that brings individuals, families/households and communities to an understanding of biblical stewardship. F4 emanates from a realization of the struggles that many families (particularly in Africa) face by way of mental distress, emasculated potential and poor financial literacy in meeting every day basic needs and wants. CMS-Africa has taken time to craft a solution for African families based on universal principles and truth found in the manual of life (The Bible). We have taken time to understand what the bible has to say as regards Finances (making, spending, storing, loving, giving) and it is this truth that we LIVE BY (practice) and PASS ON (teach) with a view to ushering individuals to **CONTENTMENT** and **FREEDOM** that comes with becoming competent **STEWARDS** of their Financial resources.

CROSS-CULTURAL MISSIONS

CMS-Africa believes that all mission belongs to God and that each Christian is engaged in making Christ known and followed; reaching out with the message of Jesus Christ to each person across the room, across the road and across the world. Through this programmatic focus area, CMS-Africa trains communities, individuals and churches to live out wholistic transformation. Through this, we deploy and facilitate Christians from around the world to short-term and long-term missions and work with CMS Mission Network members to deploy for internships, volunteer work, and both short-term and long-term missions. CMS-Africa also encourages and facilitates churches and communities to learn from each other by sharing mission resources and experiences.

People In Mission (PIM) Conference 2019 held in Nairobi Kenya

Renewed Mindsets, Transformed Nations

OUR VISION

Renewed Mindset, Transformed Nations

OUR MISSION

Equipping and multiplying leaders in the Church and society to transform communities

ABOUT US:

CMS-Africa is an international mission agency formed in 2008 and is part of the CMS Mission network together with CMS Britain, CMS Ireland, Asia CMS, CMS Australia, New Zealand CMS, SAMS-Ireland, Faith 2 Share and SAMS USA.

Since inception in 2008, CMS-Africa has disciplesd 17,000 people across seven African countries. The team at CMS-Africa enables Christian leaders to evaluate what Jesus would have us focus on today.

CMS-Africa's 2020-2025 Strategic Plan targets to enable 16,000 people to experience biblically grounded transformation that influences their families, churches, communities and nations.

We currently work in 10 African Countries that include Kenya, Uganda, Tanzania, Rwanda, Burundi, Democratic Republic of Congo, South Sudan, Sudan, Nigeria and Madagascar.

2020-2025 STRATEGIC FOCUS AREAS

CMS-Africa's work, according to the Strategic Plan 2020 - 2025, is divided into 3 Strategic Focus Areas (SFAs).

1. Biblical Worldview and Stewardship

This focus area aims at discipling and equipping people with a biblical worldview and stewardship. Four carefully crafted Bible-based programmes: Financial Freedom for families (F4); Wholistic Transformational Leadership (WTL); Youth Discipleship (3D-Discover, Develop, Deploy); and the Women Programme (WP) are implemented to catalyze transformation.

2. Building Partnerships for Local & Global mission

CMS-Africa aims to raise practitioners of wholistic mission in targeted communities of best practice. These include Local Partners, Trainers, Mission Partners and Champions who are adequately prepared for global missions. This is to be realised through the good working relationship that exists between CMS-Africa and potential global missionaries.

3. Mission Support Services (MSS)

This strategic focus area enables CMS-Africa to be sustainable, efficient and effective. CMS-Africa has an operational governance and management system with competent and committed staff. We strive to raise and prudently manage sustainable resources for the sustainability of transformational missions. We are compliant to international as well as national standards of good practice in all our operations.

WHOLISTIC TRANSFORMATIONAL LEADERSHIP (WTL) PROGRAMME

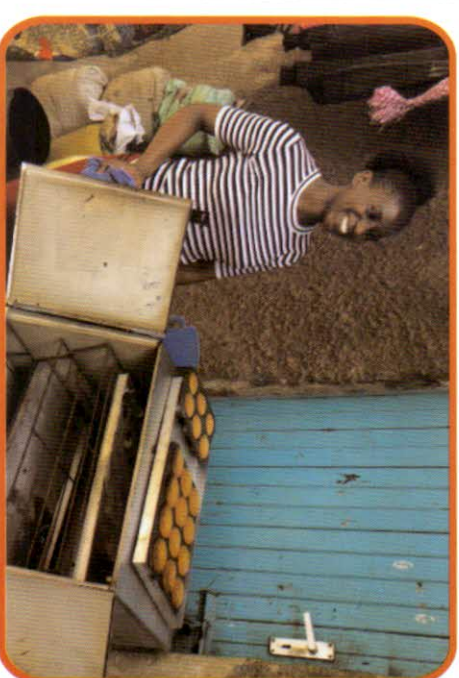

CMS-Africa through the Wholistic Transformational Leadership programme uses: **VISION-CONFERENCES** to advance mindset change/ transformation. These are five days' conferences designed for church leaders, farmers, business people and various leaders in churches and communities. The programme impacts participants in various ways including: helping participants to re-discover God's glorious vision for the nations, a vision of comprehensive transformation described by Jesus as God's kingdom. Christians are helped to understand and uphold biblical worldview and to recognise and abandon false, un-biblical beliefs. We therefore help the local church to discover God's vision for the nations, acquire a biblical worldview and live it out in every sector of society.

WOMEN EMPOWERMENT PROGRAMME

The CMS-Africa Women Programme is an interactive experience where participants are facilitated to learn from each other and from the word of God. The participants of this programme are helped rediscover: their identity in God, their creative potential as co-creators with God and creators of wealth, the value of good family relationships, the need for good nutrition, and how to improve personal savings. Women are exposed to practical: Business Planning; Personal financial Management -Bookkeeping; Marketing and Selling skills.

DISCOVER DEVELOP AND DEPLOY (3D) YOUTH PROGRAMME

CMS-Africa runs a youth programme to empower the church to effectively engage the youths with the aim of building their potential for wholistic engagement in the family, community and the nation as a whole. The Youth Programme is popularly referred to as 3D - Discover, Develop and Deploy. It is based on the understanding that Africa's greatest potential (resource and asset) is its youthful population. The Objectives of the 3D Youth Programme are: Help young people discover the gifts, talents and abilities that God has deposited in them as part of being created in His Image; Develop these gifts through training, mentoring, exposure, and lessons learnt through experience; Deploy their gifts, talents and abilities by serving, initiating income-generating enterprises, thus creating jobs, wealth and value for themselves and their communities.
